Profile

Fullstack Web Developer skilled in React.js and ASP.NET Core, with a passion for building scalable, efficient, and user-friendly web applications. Experienced in delivering clean, maintainable code and collaborating effectively with teams.

Professional Experience

Full Stack Web Developer Intern   04/2025 – present
Diraya
- Collaborate with a development team to build a comprehensive e-commerce platform.
- Develop and maintain features using ASP.NET ⧉ Core MVC, HTML, CSS, JavaScript, and SQL Server.
- Participate in both frontend and backend development, ensuring seamless integration and functionality.
- Work under the guidance of a team leader to implement best practices and optimize application performance.

Skills

Programming Languages: C#, JavaScript, TypeScript, SQL

Frameworks & Technologies: React.js, ASP.NET Core, Tailwind CSS, GraphQL, Docker

Databases: MS SQL Server, SQLite, PostgreSQL, Firebase

Tools & DevOps: Git/GitHub, xUnit, MediatR, Automapper

Projects

Order Management App ⧉
- Full-stack web application built with .NET Core (backend) and React with TypeScript(frontend), utilizing GraphQL (HotChocolate) for efficient queries and mutations.
- Integrated JWT authentication for secure user access and PostgreSQL with Entity Framework for data management.
- Implemented load balancing using Nginx for improved scalability and Dockerized the application for consistent deployment.

HR Leave Management System ⧉
• Developed using ASP.NET Core with SOLID principles and Clean Architecture for maintainable and scalable code.
• Utilized MediatR, Automapper, and Fluent API for streamlined operations and efficient workflows.
• Implemented the CQRS pattern and secured the API with Identity and JWT for user authentication and authorization.
• Conducted comprehensive unit testing with xUnit to ensure system reliability and robustness.
